

DATALOCKER SENTRY® K300 ENCRYPTED KEYPAD MICRO SSD DRIVE

Screens simulated.

NEXT GENERATION SECURITY AND CONVENIENCE

The Sentry K300 is a platform independent, keypad, micro SSD drive that incorporates an OLED display to enable advanced security features. The display supports true alpha-numeric password-based authentication and a full featured on-board menu system. Users can use the visual, menu driven system to change passwords, set the password policy, and enable other security features without ever consulting a manual.

PLATFORM INDEPENDENT

The Sentry K300 is completely cross-platform compatible and OS agnostic. With no software or special drivers required, the K300 works with Windows, Linux, MacOS, Android phones and tablets, Chromebooks, and embedded systems - any system that can utilize USB Mass Storage. Since the K300 also has its own power supply, the device can be used as a bootable device running Windows to Go™, or a portable Linux operating system.

ADVANCED SECURITY FEATURES

- Supports true alpha-numeric for strong passwords
- User and Admin roles
- Read-Only Mode
- Admin configurable password policy
- Brute Force Hack Defense
- Rapid secure wipe
- Auto-Lock feature

CENTRAL MANAGEMENT READY

Coming soon, the Sentry K300 will be compatible with the SafeConsole® Management platform. Learn more at datalocker.com/safeconsole
